in business to make certain businesses are there for the good of the  
citizens. In 1986 \$54.9 million dollars will be solicited from the  
public. "The Better Business Bureau in principle supports and  
endorses the proposed City Ordinance which was developed by the  
City's legal staff and those citizens who serve as members of the  
City's solicitation Board.".....with one exception. That exception  
deals with reports and records on page 11.....This proposal has to  
do with the accountability and it would be our proposal the

accountability be more frequent by organizations by amending that section to read that either within 90 days from the completion of a solicitation campaign or each calendar quarter if the solicitation is continued during the entire year and continue to provide an accountability of what they have done with the public's money....." He also said anyone's whose gross solicitation is \$100,000 a year or more should make available to the Solicitation Board a financial statement audited by an outside certified public accountant...." Mr. Echeson said this would be a change to Section 9-3-33
